

TRIXIA ERICKA P. TIRADOS

UI Designer | Frontend Developer | Client Support

Ridgecrest Subdivision, Pasong Buaya II, Imus, Cavite 4103

+(63) 976 593 9508

trixtirados@gmail.com

Portfolio: trixiatirados.vercel.app

Profile Summary

Frontend Developer with hands-on experience building and maintaining high-end, client-facing websites. Strong UI and creative sensibility, with a proven ability to translate designs and ideas into clean, responsive, and visually polished interfaces using modern web technologies.

Communicates effectively with non-technical clients and stakeholders, and is known for balancing technical execution, design quality, and real-world client needs in fast-paced environments.

Work Experience

Luxury Presence

Web Builder & Client Support

June 2024 – Present

- Build, customize, and maintain high-end real estate websites using internal CMS tools, HTML, CSS, and JavaScript
- Implement layout changes, styling updates, responsive fixes, and design refinements based on client requests
- Translate design mockups and brand guidelines into clean, functional web pages
- Troubleshoot front-end issues, UI bugs, and site behavior across devices and browsers
- Support IDX-related updates and coordinate with internal IDX teams when issues affect live sites
- Handle client support tickets and internal cases, ensuring timely, accurate, and client-friendly resolutions
- Communicate technical updates clearly to non-technical clients (agents, brokers, teams)

- Maintain quality standards for performance, responsiveness, and visual consistency
 - Balance client-facing communication with hands-on web implementation in a fast-paced environment
-

AskInfosec AI

Junior Software Engineer

September 2023 – June 2024

Frontend/UI Development

- Developed and optimized responsive user interfaces using React.js, Next.js, TypeScript, and Tailwind CSS, delivering intuitive and accessible web experiences
- Designed and implemented server-side rendered (SSR) and static-generated (SSG) pages to enhance performance and SEO
- Collaborated closely with stakeholders to align UI designs and functionality with user needs and business goals

Backend & Full-stack Tasks

- Built and maintained Node.js server functionality, including API development and middleware integration
- Managed database operations with Prisma ORM for seamless data flow
- Performed end-to-end testing with Cypress to ensure application reliability
- Collaborated with the team in GitHub for task management, version control, and code reviews

UI / UX Design

- Redesigned the AskInfosec AI marketing website, improving layout, visual hierarchy, and responsiveness for better engagement and clarity
 - Created detailed UI mockups for key product modules, including the Chat AI page, Trust Center module, and other application features
 - Collaborated closely with stakeholders to align designs with brand identity and user needs
 - Ensured consistency and usability across desktop and mobile views using Figma
-

Umonics Singapore

IT Intern

July 2022 – September 2022

- Assisted in UI/UX design improvements for company materials and digital platforms
 - Provided technical support for website maintenance and troubleshooting
 - Contributed to content updates and basic development tasks using WordPress
-

ABClothing Shop

Shopee Manager

March 2022 – June 2022

- Managed daily Shopee orders and ensured timely processing
 - Handled online inventory updates using the Shopify platform
 - Provided customer support and coordinated with logistics for smooth order fulfillment
-

Education

Bachelor of Science in Computer Science (Major in Intelligent Systems)

De La Salle University – Dasmariñas

2019 – 2023

-

Projects

Redesigned AskInfosec Marketing Website

Figma | React.js | Next.js | TailwindCSS | ShadCN | GitHub

- Conducted a full redesign of the AskInfosec AI marketing website, creating modern layouts, improved navigation, and responsive design mockups using Figma
 - Implemented the frontend with React.js and Next.js
-

OZScalp Micropigmentation Website (UI / UX & Web Development)

Figma | React.js | TailwindCSS | ShadCN

- Originally built in Wix, redesigned and developed a custom React.js version for greater flexibility and performance
- Created clean, user-friendly UI mockups in Figma, modernizing the visual style and enhancing user flow
- Built responsive frontend components using TailwindCSS and ShadCN, focusing on showcasing services, testimonials, and booking features

My Website Portfolio

Figma | React.js | TailwindCSS | ShadCN | EmailJS

- Designed and built a personal portfolio website to showcase projects and skills, focusing on clean visual hierarchy, accessibility, and smooth UX
 - Developed a fully responsive site using React.js and TailwindCSS, including a dynamic contact form integrated via EmailJS
 - Added interactive animations and micro-interactions to enhance user engagement and create a more dynamic browsing experience
 - Emphasized modular components for easy maintenance and scalability
-

Terra Boutique (E-commerce App UI/UX & Frontend)

Figma | React Native | Expo | ShadCN | GitHub

- Designed a 5-screen mobile shopping experience with clean, minimal interfaces using Figma
- Developed core frontend components with React Native & Expo, focusing on responsive product listings, cart & checkout flows
